

FACTSHEET SEMPERGREEN® SEDUM STRONGER

MATERIAL

Sedum Stronger is a fast-acting fertiliser that is supplied as a PK 0-3-9 fertiliser; containing phosphorus (P₂O₅) and potassium (K₂O). In addition to the PK-ratio Sedum Stronger also includes a Growth-Stimulator. This composition offers all required nutrients for the development of healthy, productive plants by the time Spring starts.

APPLICABILITY

Sedum Stronger provides a strong rooting system for Sedum plants prior to the start of the winter season.

DELIVERY AND STORAGE

Sedum Stronger can be ordered in buckets of 1, 5 or 20 kg.

Store in cool, dry conditions and keep away from direct sunlight.

DOSAGE

The recommended dose is 1 kg per 15 m² Sedum.

The ideal application period for Sedum Stronger is September or October, prior to the start of the winter season.
