

# FACTSHEET SEMPERGREEN® WILDFLOWER BLANKETS

## MATERIAL

Our Sempergreen® Wildflower blankets comprise different species of ornamental grass and over twenty species of wildflowers. A minimum of 60% of this mix is always present in each blanket. The plants grow on a biodegradable coconut fibre mat and a special substrate developed by Sempergreen®. The mats always have at least 95% coverage upon delivery. Sempergreen® vegetation blankets are produced in accordance with FLL guidelines.

## ABOUT THE VEGETATION

The Wildflower blanket consists a great variety of wildflowers and ornamental grasses, which ensures a varied and colourful vegetation.

Biodiversity is also stimulated by using plants that attract butterflies and bees.

## INSTALLATION AND MAINTENANCE

Sempergreen® vegetation blankets are very easy to install. The wildflower blankets can be installed on sloping surfaces of up to 10 degrees.

The maintenance consists of mowing once or twice a year. Download the maintenance instruction from our website.
