

## Technical Data Sheet MOY Gravel Board

### Product Description / Use:

MOY Gravel Boards are lightweight edge profile elements made from aluminium. The product size is flexible in order to create a height of 80mm or 120mm.

Other sizes are available upon request.

### Key Features:

- Can be quickly constructed
- Does not prevent water draining
- Long lasting

### Installation Instructions:

MOY recommend the separating profile elements are laid butt jointed and butt straps used for connecting one piece to another.

They may be loose laid, ballasted with straps of appropriate membrane.

MOY adhesive compounds FS011 and Enkolit may also be used where bonding is required.

Protect from site traffic.

### Application:

MOY Gravel boards create vertical separation of the roof garden elements and act as a support at exposed edges.

### Tools used in application:

Tin-ware hand tools for cutting.

### Product Accessories:

- Joining element
- Corner element

### Technical Specification:

#### Technical Data

Properties	Unit	Value
