

JOB DESCRIPTION

Job Title: Technologist
Department: Technical
Company: Moy Group
Reporting to: Technical Services Manager
Location: Dublin, Ireland

About Us:

Moy is a leading supplier of high-performance roof waterproofing systems. Headquarters in Dublin with bases in the UK and Europe our innovative, waterproofing solutions and our unparalleled technical support has earned MOY a raft of high-profile clients across the globe and place us at the forefront of this dynamic and competitive industry. As an SME with a dynamic team, we prioritise collaboration, excellence, and continuous improvement in all aspects of our operations.

Role Purpose:

The Technologist will provide comprehensive technical support to Moy's client base, ensuring seamless project execution and high-quality waterproofing solutions. The role involves collaboration with a range of industry professionals, including contractors, architects, and surveyors, while also contributing to product innovation and technical expertise development.

Key Duties & Responsibilities:

Technical Support & Expertise

- Develop and maintain technical expertise in waterproofing systems, materials, and best practices.
- Coordinate accurate and timely technical responses to client queries, supporting their project needs.
- Provide technical guidance to customers, ensuring compliance with industry regulations and standards.

Documentation & Specifications

- Prepare, update, and maintain technical documentation, project specifications, and templates.
- Draft bespoke project drawings and specifications with high accuracy and attention to detail.
- Prepare and review BIM Revit models to integrate with project workflows and ensure alignment with architectural and structural requirements.

Stakeholder & Client Engagement

- Engage in design meetings and collaborate with architects, engineers, and industry professionals.
- Build strong relationships with internal and external stakeholders to support project success.
- Conduct theory based technical training sessions for installers/industry professionals, enhancing technical knowledge across the team and client base.

Product Development & Market Analysis

- Contribute to the development of new waterproofing products and technologies, focusing on sustainability and innovation.
- Monitor market trends, competitor activities, and industry advancements to improve technical services.
- Develop in-depth knowledge of building regulations, insurance requirements, and client-specific needs within the European, Irish, and UK markets.

Other Responsibilities

- Attend industry events, conferences, and training courses as required.
- Take on additional duties and responsibilities as needed to support business operations.
- Support the Technical Services Department in developing technical content for company platforms, including NBS, the website, and external marketing materials.

Key Skills & Qualifications

- Relevant qualification in Architectural Technology, Civil Engineering, Construction Studies, or Environmental Science. Other suitably qualified candidates may apply.
- Familiarity with sustainable design principles and waterproofing systems.
- Strong communication skills with the ability to engage and collaborate with a wide range of professionals.
- Willingness to travel occasionally to sites across Ireland, the UK, and Europe.
- Strong technical knowledge of construction processes, materials, and building regulations is an advantage.
- Experience with architectural drawing, BIM (Revit), and project specifications is an advantage.
- Strong interest in sustainability and its impact on modern construction practices.

Benefits:

- Competitive remuneration package
- Opportunity to develop and grow in a fast-moving multi-national company.
- Excellent company culture and flexibility within role.
- Company pension (after 6 months)
- 25 days annual leave (rising to a maximum of 30, subject to length of service)
- 2 additional days leave, in accordance with company schemes
- Employee Assistance Program

Moy Materials Ltd is an equal opportunities employer.

How to Apply: Interested candidates should submit their CV, cover letter, and references to Andrew.fitzgerald@moymaterials.com. Please include " Job Role - [Your Name]" in the subject line.
